

The Pets Hotel

FOR VERY IMPORTANT PETS

I acknowledge and accept that The Pets Hotel will obtain Veterinary assistance should it be necessary whilst my pet is in their care. I understand that all expenses incurred will be invoiced to and payable by the owner as legally required in Part 5 Domestic (Feral & Nuisance) Animals Act.

On very rare occasions pets may suffer from conditions that require extensive Veterinary care and treatment. As a result these treatments can be very expensive. For example, if your dog suffers gastric torsion (bloat) and requires emergency surgery then this treatment can incur an expense of between \$7,000 to \$10,000.

The Pets Hotel will make every effort to contact you in these emergencies, however in the event that you are not contactable it is important that you provide your emergency contacts with detailed instructions, regarding your directions in relation to spending limits and any decisions that need to be made for humane reasons on your behalf.

The invoice for the Veterinary consult and treatment will be charged to my credit card provided on the day. A Veterinary Bond of \$300.00 is to be provided on check in by the client for any booking where a credit card is not provided. Initial _____

Two emergency contacts who are authorised to make these decisions must be provided to The Pets Hotel with every stay.

2 Emergency Contacts (who are not the pet owners and who are available while you are away)

1) Name:
Telephone Number:
Email Address:
Relationship to Owner:
